

*The example below applies to customers that only registered for the supply of electricity.
Other details may apply to your personal situation.*

Subject: Monthly payment for the supply of green energy [NUMBER]

Dear Sir/Madam,

As of [DD-MM-YYYY] your address [ADDRESS] has been switched to Greenchoice for the supply of electricity. Due to this switch you are not only better off, but you will also have to pay only one monthly amount for your energy. You do not need to pay any separate costs to your grid operator, these costs have already been included in your monthly payment.

Greenchoice has set up a connection and transportation agreement (ATO) with you on behalf of your grid operator. Enclosed are the contract and the General Terms and Conditions. Below is an overview of the type of energy connection(s) belonging to the address above and the corresponding tariffs:

Electricity: flexible tariff	Supply tariff	Energy tax	ODE*
Electricity	Enexis	3 x ___ A	€
Gas	Enexis	3 x ___ A	€

Your monthly payment will be: Electricity [PRICE/TARIFF] (based on an annual consumption of [kWh]).

Your monthly payment is based on your current energy prices and the past energy consumption at your address. You can easily adjust your monthly payment via your personal online file at <https://dossier.greenchoice.nl/>.

Your previous supplier will stop withdrawing monthly payments from your account and within a few weeks you will receive a final bill from them. Your monthly payments will be settled on this bill. Therefore you will not pay double for the same period of supply.

Your first monthly payment will be automatically withdrawn from your account on [DD-MM-YYYY] of IBAN [IBAN]. In the future, the direct debit will take place around the 6th of every month.

Kind regards,
Evert den Boer
CEO
